

## **PRE-HOSPITAL DRUG FOMULARY**

### **General Guidelines**

Jackson Parsh Ambulance Service District strives to stay as current as possible with recommendations and guidelines for medication administration to the patients we serve. At any time during patient care, if there is a question as to any medication usage, Medical Control will be contacted prior to the administration. There are some general rules which will be followed:

The administration of any medication with the exception of oxygen will require cardiac monitoring of at least the four leads.
